½
of Larkspur Marina streets were underwater by noon on Jan. 4, 2026

$25,000
in damage can come from just 1 inch of water in a home (FEMA)

WE DO THE HEAVY LIFTING

- Sandbag walls across garage doors and doorways
- Runs along gates, fence lines and decks
- Heavy plastic sheeting under every wall
- Staggered rows, stacked like bricks
- Set up before the storm, picked up after the season
- We bring all the bags and sand. You don't need to be home.

LOCAL KIDS, LOCAL HELP

We're students at the public schools right here. When the creek floods, it's our neighbors, teachers and friends' families who get hit.

We stack every wall like it's protecting our own house. Free quotes, and 15% off all season.
